

Neighbourhood crime report

Recorded crime summary for SW1A 1AA

This report summarises 770 published incidents returned within 0.5 km of the searched postcode in the report window Jan 2025 to Jul 2025.

Postcode searched	SW1A 1AA	Radius used	0.5 km
Requested report window	Jan 2025 to Jul 2025	Published records returned	Jan 2025 to Jul 2025
Centre point used	51.50101, -0.14156	Generated on	21 Apr 2026
Product tier	All time / 0.5 km		

Published incidents

770

Largest category

Theft From The Person

Main police-area difference

Theft From The Person

Latest published month

Jul 2025

Main findings

- Theft From The Person was the largest published category, accounting for 42.5% of incidents in the search area.
- Compared with the wider Metropolitan police area, Theft From The Person accounts for 35.1 percentage points more of the local total.
- Compared with England and Wales, Theft From The Person accounts for 39.8 percentage points more of the local total.
- Recent 3 months returned 404 published records, compared with 276 in the earlier comparison period.

Important limitations

- This report describes recorded incidents in the published dataset, not all crime experienced in the area.
- Published police locations are approximate and should not be treated as exact addresses or exact incident points.
- Outcome labels are shown as published and are not the same as court results or a full case history.
- Recent months can move as police forces revise or backfill published records.

Read this as a summary of published police data for one postcode-centred search area, not as a safety rating.

Compared with the wider police area

This comparison uses the wider Metropolitan police area in the same report window. It helps show whether the search area has a different category mix from the broader force area that covers it.

Published incidents in this search

770

The incidents returned for the postcode-centred search area

Published incidents across Metropolitan

729,047

All published incidents across the wider Metropolitan police area in the same window

This area compared with the wider police area

A wider police-area comparison keeps the source and the time window aligned. It still does not account for population, land use, or visitor activity.

Compared with England and Wales

This page compares the local mix of crime categories with the published England and Wales pattern for the same report window. It shows differences in category share, not differences in resident crime rate.

Local share against England and Wales share

Each row compares the local share of incidents with the England and Wales share for the same category.

What stands out

- Theft From The Person is 39.8 percentage points above the England and Wales share.
- Violent Crime is 18.1 percentage points below the England and Wales share.
- Other Theft is 10.6 percentage points above the England and Wales share.

How to read this page

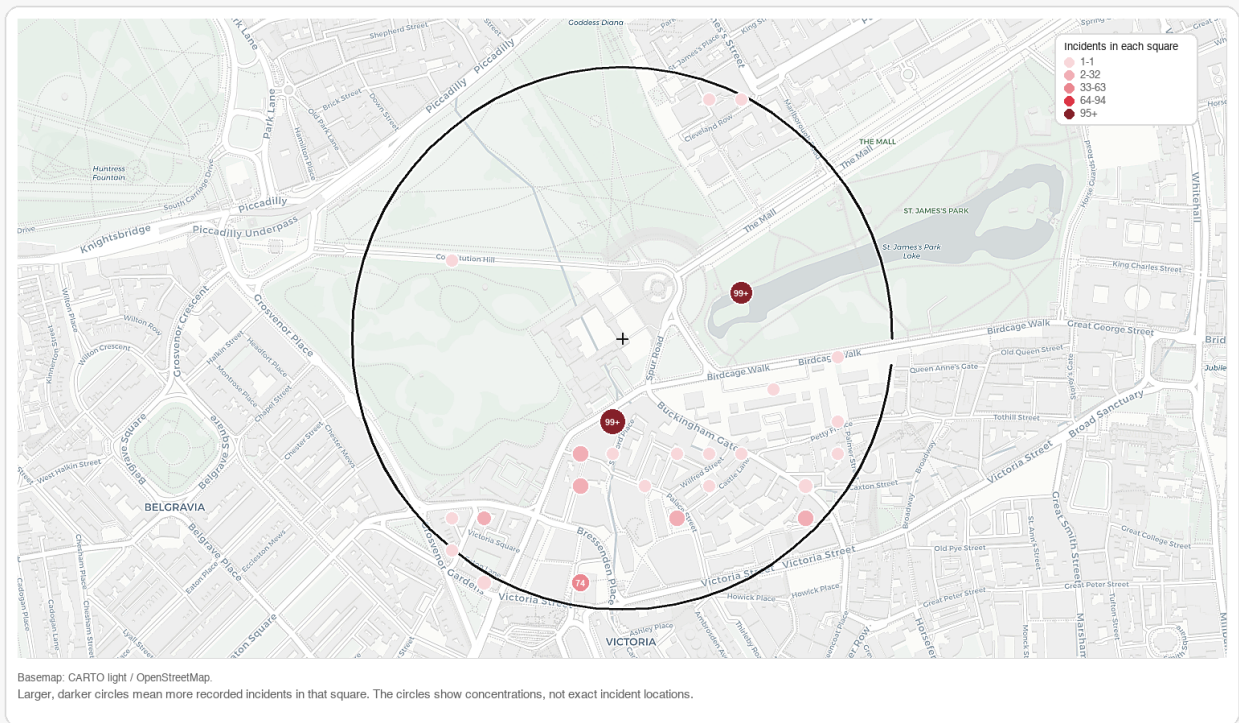

- This comparison helps describe the local category mix. It is not a score or a ranking.
- Differences can reflect land use, transport activity, reporting patterns, and local policing as well as crime conditions.

Maps

These maps show the searched area and broad concentrations in the published data. They are designed to stay cautious about location precision.

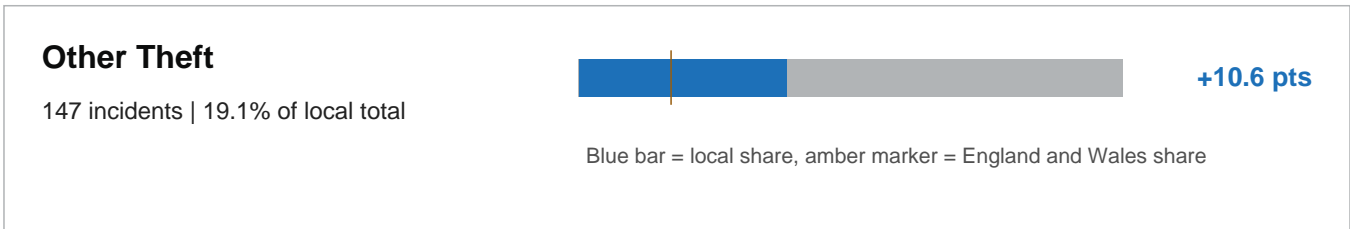

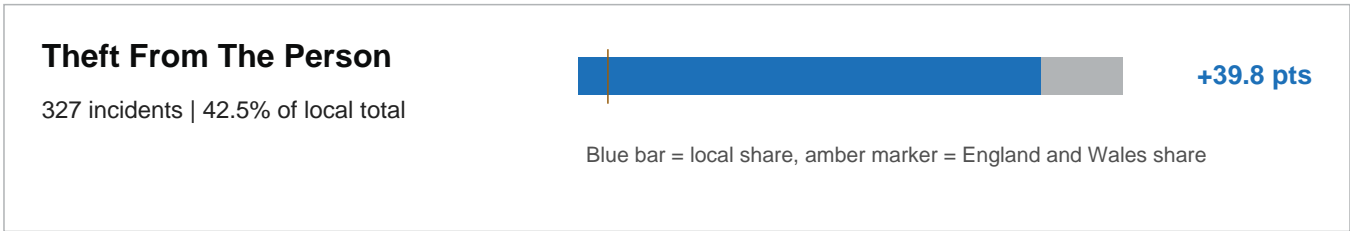

Concentration

Grouped incident counts from approximate published police points within the searched radius

The concentration map groups nearby published points together so you can see broad clusters without making the underlying data look more exact than it is.

Categories, location labels, and published outcomes

Most repeated labels

These are repeated published location labels, not exact address points.

On or near Buckingham Mews	156
On or near Park/open Space	130
On or near Theatre/concert Hall	80
On or near Palace Place	57
On or near Warwick Row	52
On or near Spenser Street	49

Published location labels and published outcomes are useful context, but both are partial. Read them as broad evidence about recorded patterns, not as a complete case history or an exact incident map.

Trend and how the report was built

Recent 3 months returned 404 published records, compared with 276 in the earlier comparison period. May 2025 to Jul 2025 compared with Feb 2025 to Apr 2025

Published records returned for this report area

Latest month vs previous month: +17 records.

Recent periods may change as published data is revised.

Method summary

- Incidents were selected within 0.5 km of the postcode centre (51.50101, -0.14156).
- Police-area comparison uses the constabulary attached to published incidents in the same report window. England and Wales comparison uses the overall published category pattern.
- Category mix benchmarking compares the local share of incidents with the overall England and Wales pattern in the published dataset.

Why the report keeps things cautious

- data.police.uk street-level crime data under the Open Government Licence.
- Query window: 2025-01 to 2025-07.
- No rate per resident is shown because the report does not yet have an official population figure for this exact search shape.

This report describes recorded incidents in the published dataset, not all crime experienced in the area. Published police locations are approximate and should not be treated as exact addresses or exact incident points. Outcome labels are shown as published and are not the same as court results or a full case history. Recent months can move as police forces revise or backfill published records.

Appendix

The pages that follow list the individual published records returned by the report query. They are included for transparency and depth. The main report pages should still be read first.

Appendix rows still use shortened location text and should still be interpreted as approximate published data.

Published incident list

Each row represents one published record returned by the report query. Dates reflect the incident month in the source dataset. This appendix shows the most recent 300 records so the PDF stays usable.
